

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**TELEGRAPH RATES TO FOREIGN COUNTRIES.**

The following table gives the rate per word from *New York City*. The address and signature are included in the charges, and the maximum length of a chargeable word is fixed at fifteen letters. When a word is composed of more than fifteen letters, every additional fifteen or the fraction of fifteen letters will be counted as a word.

The rates of the several cable companies doing business from New York are practically the same. In some cases, however, there is more than one rate to the same point, depending upon the route selected. For instance, the rate to Japan "via Northern" route (through Siberia) is \$1.76 per word, while the same office here will charge \$2.15 if the message is ordered transmitted "via Eastern" or "Indo." The rates in table below are the rates by the *lowest price route*.

JURY DUTY IN GREATER NEW YORK

A person over 21 years and under 70 years of age is liable to be called upon for jury duty in the County of New York, provided he is a citizen of the United States and a resident of the county in which the court is held. A resident within the meaning of the jury law is one who dwells or lodges within the county for the greater part of the time between the first day of October and the last day of June. He must also be owner in his own right of real or personal property to the value of \$250, though the husband of a woman owning that amount of property in her own right is eligible. Other requirements are the possession of the natural faculties, intelligence, good character, and ability to read and write the English language understandingly.

**JURY DUTY IN GREATER NEW YORK—Continued**

In the County of Kings a man, to be qualified, must be a citizen of the United States and a resident of that county, not less than 21 nor more than 70 years of age, the owner in his own right of real property to the value of \$150, personal property to the value of \$250, or the husband of a woman owning real or personal property to that value in her own right. Other qualifications are the same as for the County of New York.

Those disqualified in the County of New York are the following: The Governor, Lieutenant-Governor, Governor's Private Secretary, the Secretary of State, the Comptroller, State Treasurer, Attorney-General, State Engineer and Surveyor, a Canal Commissioner, Inspector of State Prisons, a Canal Appraiser, Superintendent of Public Instruction, Superintendent of the Bank Department, Superintendent of the Insurance Department, a member of the Legislature during the session of the House of which he is a member, a Judge of the Court of Record, a Surrogate, a Sheriff, Under-Sheriff, the Clerk of a Court of Record, and the deputies of the above officers.

The following are exempted as trial jurors upon claiming the right, although qualified: A clergyman officiating as such and following no other calling; a practising physician, surgeon or surgeon-dentist having patients requiring his daily personal attendance, and not following any other calling; a licensed pharmacist, while actively engaged in his profession as a means of livelihood; a registered veterinary surgeon actively engaged in his profession; an attorney or counselor-at-law, regularly engaged in the practice of law; a professor or teacher in any college, academy or public school, not following any other calling; an editor or reporter or editorial writer employed on a daily newspaper and not following any other vocation; the holder of an office under the United States, or the State or City or County of New York, not disqualified; a Consul of a foreign nation; a captain, engineer or other officer actually employed upon a vessel making regular trips, or a licensed pilot actually following that calling; a superintendent, conductor or engineer employed by a railroad company other than a street railway company, or a telegraph operator employed by a telegraph company actually engaged in duty for the company by which he is employed; a grand juror or sheriff's juror, selected for the year pursuant to law; any officer, non-commissioned officer, musician or private actually serving in a brigade, regiment, battalion, company or troop of the Old Guard of the City of New York, or of the National Guard of the State, uniformed and equipped according to the law, and faithfully performing his duty; or a general or staff officer actually performing duty as such, or a person who has been honorably discharged from the National Guard after five years' service in either capacity; a person who has been honorably discharged from the military forces of the State after seven years' service, provided the service has been performed prior to 1862, either as a general or staff officer or non-commissioned officer, musician or private in a uniformed battalion, company or troop of the militia of the State, and since April 23, 1862, as a member of the National Guard of the State of New York; a person who has been honorably discharged after at least five years' faithful service in a fire company or fire department; persons who are physically incapable of performing jury duty by reason of severe sickness, deafness or other physical disorder; a person holding office in the fire or police department of the city; a duly licensed engineer of steam boilers actually employed as such; election officials; municipal court jurors.

Those having the right to claim exemption in the County of Kings are the same as in the County of New York, with the exception of Consuls of foreign nations, grand jurors and sheriff's jurors; and including persons belonging to the army or navy of the United States.

By a law passed in 1901, a Commissioner of Jurors was appointed and the selection of special juries provided for in criminal and civil actions in any county having a population of at least 1,000,000. Special jurors are selected from the persons qualified to serve as trial jurors. No person may be selected who has been convicted of a criminal offense, or found guilty of fraud or other misconduct by the judgment of any civil court; nor any person who possesses conscientious opinions regarding the death penalty, such as would deter him from finding a verdict of guilty for any crime the penalty for which is death; nor any persons opposed to convictions on circumstantial evidence; or any person who holds any opinion that would prevent his giving a fair and impartial verdict.

A special jury may be drawn in civil cases where it appears to the Court, upon application, that the case at issue is of such importance or intricacy, or that the subject-matter of the indictment has been so widely commented upon, that an ordinary jury cannot without delay and difficulty be obtained to try such issue. Under such circumstances as these the Court may order a special jury to be drawn, specifying when the drawing of the special jury shall take place, the number of special jurors to be drawn, and the day of the term of court on which they shall appear.

Justices of the Supreme Court residing in the County of Kings, or a majority of them, may require the Commissioner of Jurors to examine and revise the general panel of trial jurors for the county, under their supervision and direction. He is empowered to subpoena every person on the panel for the year, and make inquiries and examine them as to their competency and qualifications, and may take off from the list those persons who do not meet with the requirements. If any person summoned fail to appear, except on account of physical disability, or refuse to be sworn, or to answer such pertinent questions as the Commissioner may ask, he may be punished by any trial justice of the Supreme Court sitting in that County. Every person so summoned must present at that time any exemption from jury service that he may have, and if he fails to do so he shall be deemed to have waived his right and cannot be excused thereafter, except for lack of some requirement.

## PASSPORTS.

### Rules Governing the Issue of Passports.

1. **By Whom Issued.**—No one but the Secretary of State may issue passports in the United States. A citizen desiring a passport while abroad should apply to the diplomatic representative in the country where he happens to be; or, in his absence, to the consul-general; or, in the absence of both, to the consul of the United States. The necessary statements may be made before the nearest consular officer of the United States.

2. Passports are granted to citizens only.

It must be attested by an officer authorized to administer oaths, and if he has an official seal it must be affixed. If applicant signs by mark, two attesting witnesses to signature are required. Applicant is required to state date and place of birth, occupation and residence, to declare he goes abroad for temporary sojourn and intends to return, and must take oath of allegiance to United States Government. Applications must be accompanied by a description of the person applying, and state following particulars, viz.: age, stature, feet, inches (English measure), forehead, eyes, nose, mouth, chin, hair, complexion, face. The application must be accompanied by a certificate from one witness that applicant is the person represented and that the facts stated are true.

4. **Native citizens.**—(See Rule 3.)

10. **Wife, Minor Children and Servant.**—When applicant is accompanied by wife, minor children, or servant, who is an American citizen, it will be sufficient to state the fact, giving the respective ages of the children and the citizenship of the servant, when one passport will suffice for all. A woman's passport may include her minor children and servant under above conditions.

11. **Professional Titles.**—They are not inserted in passports.

12. **Fee.**—One dollar is the fee collected for every passport. Orders should be made payable to Disbursing Clerk, Department of State. Drafts or checks will not be accepted.

13. **Blank Forms of Application.**—Are furnished by the Department to persons upon their stating whether they are native or naturalized citizens, or claim through the naturalization of husband or parent.

14. **Address.**—Communications should be addressed to the Department of State, Passport Division.

15. **Rejection of Applications.**—The Secretary of State may refuse to issue a passport to anyone who he has reason to believe desires it for an unlawful or improper purpose, or who is unable or unwilling to comply with the rules.

The foregoing rules apply also to passports in United States.

## CIVIL SERVICE RULES

The Civil Service Law prescribes that appointments and promotions in that service shall be made according to merit and fitness, to be ascertained so far as practicable by competitive examination; and no appointing officer may fill any vacancy except in accordance with the Civil Service Rules. No employee in the Civil Service may be transferred to any position in a higher class than that which he has held, unless he has passed an examination for the higher position, or he has served the City three years in a similar position.

No transfer shall be made from the unclassified to the classified branch of the service, nor from any position in the competitive class to another in that class, without authorization of the Municipal Civil Service Commission, and a violation of that rule is good cause for the dismissal of the offending official.

There are four divisions of the classified service: the Exempt Class, the Non-Competitive Class, the Competitive Class, and the Labor Class.

The Exempt Class comprises the deputies of the principal executive officers of the several departments.

The Non-Competitive Class includes persons appointed in an emergency to fill vacancies for which there is no eligible list on hand. Such an appointment, however, cannot continue longer than two months, nor can the vacancy be again created and filled temporarily. A permanent appointment must be made after examination at the expiration of that period.

The Competitive Class includes all positions and classes of employees except those of the Labor Class, which includes all laborers and other employees who shall not be subject to examination, and except those especially exempt from examination under the Civil Service rules or the statutes of the State.

Applications for appointment under the Civil Service must be addressed to the Secretary of the Municipal Civil Service Commission; and all applicants must furnish their full names and addresses, with such other information concerning themselves as is naturally of use in judging their qualifications and fitness for appointment. Applicants will find it desirable to state what branch of the service they wish to serve, if they have a preference; and they must take oath before a Notary as to the truth of all their statements.

**CIVIL SERVICE RULES—Continued**

No person under eighteen years of age can be appointed to a position in the Competitive Class, unless otherwise provided by the rules. Professional persons who are to perform technical or expert duties are required to satisfy the Commission that they are regularly authorized by the laws of the State to engage in their particular field of effort, before they can be accepted under the Civil Service; but such persons are not expected to submit to an examination adapted for non-professional persons.

A false statement will disqualify an applicant, and the Commission may refuse to examine a person who is unsuitable for the service. No person who has been convicted of crime, who has been dismissed from the public service, or who has attempted to practise fraud in connection with his application, can be appointed. Intemperance also debars.

All examinations are conducted in writing, and the utmost care is exercised to prevent fraud in the preparation of applicant's papers. Any person detected in fraud is instantly dismissed by the Commission. No person who has failed to pass an examination may be again admitted to examination within nine months without consent of the Commission.

Applicants for senior clerical positions must attain an average percentage of 80, and no person who receives less than 70 can be appointed to any clerical position.

Applicants for positions requiring technical or professional knowledge must attain an average of 75 per cent.; otherwise they cannot be accepted.

Applicants for positions in the Fire and Police Departments are required to average 70 per cent. in mental and 70 in physical examination. No applicant who fails utterly in any one branch of the examination can be appointed to the service.

Candidates for promotion in graded positions must attain an average of 80 per cent. in all grades up to the second, and 85 per cent. in all higher grades; while in the Police and Fire Departments they must average 70 per cent.

If a person feels that he has not been fairly treated by an examining board, he may appeal to the Municipal Commission, who will investigate his complaint and will remedy any injustice that may have been done.

In all eligible lists prepared by the Secretary of the Commission, candidates who have been honorably discharged from the United States naval military service, having served during the Civil War, will be specially indicated in order that they may receive preference in the matter of appointments. No eligible list shall be effective for a term longer than four years, and at the expiration of that time, or the lapse of one year, a new list may be submitted to the Secretary. The eligibility of those on the old list will expire at the same time, so that they will be obliged to pass a new examination in order to be placed on the new list.

A person who is appointed to a Civil Service position is expected to accept it within four business days after receiving notice of his appointment. Delay longer than four such days is interpreted as a declination. A person may waive his right to a position on ground of non-residence, insufficiency of salary, or temporary disability.

No person whose name is on an eligible list may take an examination for another position within nine months of the issuance of the list, except by consent of the Commission.

Persons on the eligible list of any department may accept temporary appointment in emergency cases without affecting their rights to permanent appointment later.

When extra clerks are required for temporary employment in the departments of Taxes, Finance, Elections, Assessments and Arrears, Water Rates and Water Supply, temporary appointments may be made from the eligible list and otherwise without special examination; but such employees selected from the eligible list will be given preferment when permanent appointments are made in those departments. Those whose names are on the eligible list will be restored to that list in their original order at the expiration of their temporary service in any one of the departments named.

Every original appointment in the Civil Service is for a probationary period of three months, except in the cases of firemen and of patrolmen, when it is one month's probation. If the appointee is then declared competent, his appointment is made permanent; if not, he is dismissed.

Promotions from lower to higher grades of a department are made on the basis of merit, seniority of service and examination. An increase of salary is deemed promotion.

Delinquency and misconduct are sufficient causes for dismissal, and no persons dismissed for such reasons may be appointed to any position under the Civil Service within two years after dismissal. No person may be dismissed from the Civil Service for political reasons, nor until the person has been given an opportunity to refute the charges made.

Any person who has retired from the Civil Service voluntarily or who has been dismissed without prejudice may be reinstated within one year after leaving his position. If he wishes to re-enter the service after the expiration of that period he must submit to examination again.

While there is no rule prohibiting persons in the Civil Service contributing to political campaign funds, it is expressly stipulated that no such person shall be dismissed from the service for refusing to contribute to such funds. Nor shall any person in authority exercise his power against any Civil Service employee because of his political or religious affiliations.

Applicants for positions as laborers are required to furnish satisfactory references as to character, sobriety and physical fitness for such work, and their names are registered by the Labor Clerk; but no appointment to that class is for a longer period than one year, when they may be re-appointed if they pass another physical examination. If at any time they fail to

## CIVIL SERVICE RULES—Continued

fulfil the physical qualifications required, they are dismissed, but without prejudice—that is to say, their dismissal is no reflection upon their character. One department may call upon another to furnish extra labor forces temporarily, in which case the Commission will indicate what assignments are to be made, and from the lists so submitted to him the executive officer of the department requiring the laborers will select such persons as he needs, and will report his selections to the Labor Clerk.

If an emergency arise under which laborers are required immediately, the executive officer may hire such persons as he wants without examination, but not for a period longer than three days.

## SURFACE STREET CAR ROUTES IN GREATER NEW YORK

## Manhattan

Corrected by Interurban Street Railway Company especially for THE MANHATTAN GUIDE

## SURFACE STREET CAR SYSTEMS OF MANHATTAN

The Surface Street Car System of Manhattan is practically divided into two systems—the Metropolitan and the Third Avenue Systems.

Each of these systems allows extensive free transfer privileges between its own lines. The Third Avenue system also transfers with the Manhattan (Elevated) Railway system at all connecting and intersecting stations for three cents extra. The free transfer arrangements, which are practically identical on the two systems, are designed to permit a passenger to go from any part of the Borough to any other part in the same general direction for a single fare. Transfers given on cars running north or south (lengthwise of the city) permit you to continue either east or west on any crosstown line in the system, and, except on the lines south of 34th st., to retransfer to any other north or south line in the system, in the same direction in which the journey was started, the original transfer ticket being retained for that purpose. Transfer tickets are furnished on request, either by the conductor on the car or by an agent on the sidewalk at the point of transfer.

Fares on all lines, five cents, and children under four years of age are carried free.

The office of the Interurban Street Railway Company, controlling all lines in Manhattan, is at No. 761 Seventh ave.; the lost property office, No. 820 Eighth ave.

Owing to changes being made in motive power and routes, the information given is, of course, subject to change.

**TIME DIFFERENCE—Standard Time**

**Eastern Time**—Includes all territory between the Atlantic Ocean and an irregular line drawn from Detroit, Mich., to Charleston, S. C.

**Central Time**—All the territory between the last-named line and an irregular line drawn from Bismarck, N. Dak., to the mouth of the Rio Grande.

**Mountain Time**—All territory between the last-named line and nearly the western borders of Idaho, Utah and Arizona.

**Pacific Time**—All territory between the last-named line and the Pacific Ocean.

The time of each section differs from that next to it by exactly one hour: thus, at 12 o'clock noon, New York (Eastern Time), it is 11 a.m. at Chicago (Central Time), 10 a.m. at Denver (Mountain Time), and 9 a.m. at San Francisco (Pacific Time). Standard Time is 16 minutes slower at Boston than true local time, 4 minutes slower at New York, 8 minutes faster at Washington, 19 minutes faster at Charleston, 28 minutes slower at Detroit, 8 minutes faster at Kansas City, 10 minutes slower at Chicago, 1 minute faster at St. Louis, 28 minutes faster at Salt Lake City, and 10 minutes faster at San Francisco.

In the case of the prominent thoroughfares, there are also given the important cross streets with the intersecting numbers, and it will be found that this information is sufficiently detailed to facilitate the location of any point in the Boroughs of Manhattan, The Bronx and Brooklyn.

MANHATTAN AND THE BRONX

All numbered east side streets from E. 8th to E. 142d, inclusive, begin at Fifth ave. and run to the East and Harlem rivers. Beginning with E. 11th st., one hundred numbers are used on each block between the numbered and lettered avenues (Madison and Lexington avenues not considered).

All numbered west side streets from W. 14th to W. 143d, inclusive, begin at Fifth ave. (except those from 59th to 109th, which begin at Central Park West), and run to the Hudson river, the same principle of numbering being used as on the east side, viz.: one hundred numbers to each block. The location of any given number may thus be readily ascertained.

2. Cancel the last figure always.
3. Divide by 2 always the remaining figure.
4. Add Key figure, which is found opposite avenue you are working on

BOROUGH OF THE BRONX

**NOTE**—Borough of The Bronx. The prefix *West* is given to all cross streets in the 23d and 24th Wards lying west of the thoroughfare known as Broadway, which runs from Spuyten Duyvil Creek to the Yonkers Line, and the prefix *East* is given to all cross streets lying east of that thoroughfare. It is not possible at this time to give the streets *East* of the Bronx river, as the official maps have not yet been approved by the Board of Aldermen. The streets *West* of the Bronx River, as given, are officially correct.

Subdivision 1—Retail, to be drunk on the premises where sold. Subdivision 2—Retail, less than 5 gals., not to be drunk on the premises (bottle trade). Subdivision 3—Pharmacists' license, on physicians' prescriptions only. Subdivision 6—Alcohol only, for mechanical, medicinal or scientific purposes. Subdivision 6A—For a fruit-grower or manufacturer of liquors from native fruit, to be sold only in quantities, not to be drunk on the premises.

NOTES.—In addition to the new and increased liquor tax rates given above, the following new provisions of the liquor tax law are important and interesting:

1.—A holder of a license under sub-division 1, for trafficking in liquors to be drunk upon the premises where sold, may, upon the payment of a tax of ten dollars for each day, be granted a license for the sale of liquor to be drunk on the premises at another specified location, during a specified time. (To cover temporary, additional bars.)

2.—A holder of a license under sub-division 3 (pharmacists' license, on prescription only), may sell liquor in quantities not exceeding one pint, without a written prescription, upon taking out an additional license (under what is designated as sub-division 3-A), the tax for which is ten cents on each sale, paid by affixing a stamp to each bottle sold. No part of liquor so sold can be drunk on the premises. Only one pint can be sold to one person on the same day, and a record of all sales must be kept, subject to inspection.

3.—The tax for a license on each car, steamboat or vessel (sub-division 4), is increased from \$200 to \$300.

4.—The tax upon a license for selling from a vehicle by the holder of a license under sub-division 2 (covering the delivery of bottled beer), is increased from \$100 to \$150 for each vehicle.
